Individual coaching sessions to learn how to make visual supports such as social stories, timetables and reward charts.

Visual supports are tools that can be used in many ways to help children and adults:

- Learn new skills
- Communicate with others
- Understand and join in more
- Become more independent in daily activities and routines
- Learn positive behaviours
- Develop friendships

Our staff will:

- Show you lots of examples of visual supports for home, kinder, school or work
- Help you plan the best visual tool for your situation
- Show you how to use ‘Board maker’, the ‘Tools 2 Talk’ app or the internet to make visuals
- Help you make visual tools on the spot so you can take it home the same day.
