KCPS Swimming Process

- Every class participates in a 30-minute swimming lesson a week.
- Students need to bring their swimming bag to school the day of their swimming lesson (swimming caps are provided by the swim school).
- Students are grouped in level of ability, which is decided by the swim school.
- Any student not participating in swimming will go to another class (they will **not** attend the swimming with their class).
- Students in Year 1-3 will **not** require support of parent helpers, teachers, and ES where needed support students.
- Preps will require some support from parents, this will be organised by the homeroom teacher.
- There will be makeup lessons for any missed swimming lessons at the end of the term (more communication will come closer to the date).
- There will be a final showcase at the end of the term, where parents will have an opportunity to attend the swimming lesson (more communication will come closer to the date).
